

The Five Pillars of the Redondo Beach Residents Association

The First Pillar

This Association will never be a tool for dictating conditions to our Neighbors. The Association must be and remain strictly a venue through which Residents and Homeowners can stand together to strike a balance between the good of business and the good of Residents of Redondo Beach. Otherwise we should leave each other alone. There are already too many trying to dictate to residents and homeowners.

The Second Pillar

The Redondo Beach Residents Association will not take an anti-business stance. The focus will be on acting as a collective voice that is pro-resident and committed to striking a fair balance between Residents/Homeowners and business.

The Third Pillar

The Residents Association will not use character assassination in any way, shape or form against our elected officials, the Chamber of Commerce or any other person or entity.

The Fourth Pillar

We will do all things with Honor and Integrity, and based firmly on Principle.

The Fifth Pillar

Nothing the Board or Association does will be anti-military or anti-American.
